MEMORANDUM FOR: Assistant, Plans and Development

SUBJECT: Electrocolor Feasibility Study

25X1 1. At the request of P&DS/DB, the [] submitted a
proposal on 23 November to perform a complete evaluation of the
Electrocolor Process. The total funding requested for the study was
25X1 []; however, an alternate first phase was also proposed at the
25X1 [] level of effort. At that time [] was preparing
to send back to [] the Electrocolor machine they were renting.
25X1 Anticipating a contract with the Agency to evaluate the Electrocolor
System, [] has not returned their machine [] but
continued to rent it at an approximate cost []

25X1 2. Since the submittal of their proposal, [] has
made several inquiries as to the status of a decision on their proposal.
As it is unfair to expect [] to continue paying rental
on the machine in anticipation of a contract, it is of utmost urgency
that P&DS takes some action with the proposed Electrocolor Feasibility
Study. The R&D Catalog Form on this study was prepared on 28 December
1965, and immediate TDB action should be scheduled. We plan to proceed
with a [] level of effort in FY 1966 and supplement this in
FY 1967 if appropriate. This project has been coordinated with
25X1 [] and received his concurrence.

[] 25X1
Chief, Development Branch, P&DS
